

# How to Synchronize your Remote

## **Remote with on/off switch (for 2014 model only, no external antenna)**

Step #1 Make sure power is totally off for at least five (5) seconds

Step #2 Hold down the stop button on the remote

Step #3 Power up cart. Continue to hold down the **stop button**.

Step #4 Continue hold down the stop button until the lights on the LED screen blink.

**Step #5** Cart is now in “sync” test each function to assure all are functioning

You are ready to go!

## **Remote for carts from 2010- 2013/14 (controller no green button, antenna strap)**

Step #1 – Make sure power is off for at least five (5) seconds.

Step #2 - Hold down the **forward button** on the remote. Make sure the red LED light is lit.

Step #3 - Power up the cart. Continue to hold down the forward button on the remote

Step #4 - Start counting slowly. Cart will start to move before you reach 15.

Step #5 - Cart is now in “sync” test each function to assure they are functioning.

You are ready to go!

## **Remote for carts before 2010 ( Controller has a green button)**

Step #1 Remove controller cover and expose the controller.

Step#2 Find the green button on the small plastic side of the controller

Step #2) Power-up cart. Press and hold-in the green button on the controller

Step #3 While holding the green button in, start pressing and releasing the forward button on the remote. Process may take 5-15 seconds. Once cart begins to move you are in sync. Then test each function
